Following the submission of the mandatory documents and receipt of the application fee, the Department will review the documentation and (1) request additional information to which the applicant must respond before approval of the new location can be made, or (2) issue the applicant a conditional approval to re-locate to the proposed site. An applicant may begin the build out of the location before receiving conditional approval, however, if doing so, the applicant proceeds at their risk that the Department may deny the application or may suggest amendments to the floor plan to increase the likelihood the applicant's the floor plan will meet compliance requirements when the Department comes to inspect the new location.

I understand the proposed dispensary location must be approved by the Department before the dispensary may begin operating at the new location, that I must submit a different Department-approved form to request an inspection after construction is complete, and approval to operate at the new location is subject to passing a site inspection by the Department.
