Remote Examinations

Welcome

We will be starting momentarily.

Opening Comments

These exams are risk focused and expanded based on areas of concern.

- Items needed list will still be emailed.
- Lists are tailored to the remote exam process.
- The requested items must be uploaded prior to the exam start date.
- Questionnaires must be completed and uploaded prior to the exam start date.

Examinations are taking longer.

- One to two weeks longer.
- Because of:
 - * Time needed to upload additional items requested;
 - * Time needed to download items requested;
 - * Locating specific items in the portal that were requested;
 - * Waiting on communication.

How to Decrease the Examination Duration

- Uploading zipped files (all documents or in categories) opposed to individual documents.
- Adequately describing the documents uploaded. Specifically name or use requested item reference number from items needed list.
- Uploading the items to the corresponding sub-folders.
- Ensuring all requested items are uploaded prior to the exam start date.
- Maintaining contact with the examiner.
- Identifying a specific contact staff person who will be responsible for following up on examiner's questions or additional items needed.

Examiner and Management Required Contact During the Exam Process.

- Identify a specific contact staff person who can act as a liaison between the credit union and the examiner.
- Emails
- Phone calls:
 - * As needed.
 - * Recommended a couple of times a week at a predetermined day and time for updates, clarifications, and concerns.
- Each examiner has the capability to do a WebEx meeting. This allows both the credit union staff and the examiner to share screens if necessary.

Exit and Board Presentations

- Not going to be in person.
- Conference calls.
- WebEx meetings.

Exchange of Information for the Examination

- Do not send documents with Private Identifiable Information (names, account numbers, social security number, etc.) via unsecured emails, google documents, Dropbox, iCloud, or any other unsecured shared drive.
- IDFPR and you have access to two different methods for secure information exchange.
 1. NCUA Secure File Transfer Portal (Encrypted)
 2. Illinois Government File Transfer (Encrypted)
- For technical transfer issues and with Departmental permission, the examiner can go to the credit union only long enough to pick-up and drop-off examination items. All CDC guidelines must be followed at all times.
