BROKER 75-HOUR PRE-LICENSE CURRICULUM

Course Goal

To provide prospective licensees with the knowledge necessary to prepare for the Illinois Real Estate Broker examination.

Overview

Section 5-27(a)(5) of the Real Estate License Act of 2000 requires an applicant for licensure as a broker to provide satisfactory evidence of having completed 75 hours of instruction in real estate courses approved by the Department, 15 hours of which must consist of situational and case studies presented in the classroom or by live, interactive webinar or online distance education.

The 75-hour pre-license curriculum consists of 3 parts contained within two courses: (i) 60 hours of Real Estate Topics (parts 1 and 2); and (ii) 15 hours of Applied Real Estate Principles (part 3). The 60-hour broker pre-license real estate topics course may be provided in any format. The 15-hour broker pre-license applied real estate principles courses must be provided only in the classroom or through a live, interactive webinar, or online distance education format. A student is not required to take an examination to receive credit for courses completed in a classroom or through a live, interactive webinar, or online distance education format. To receive credit for courses provided through correspondence, or by home study, a student must pass an in-person, proctored examination.

A licensed education provider may apply for the 60-hour broker pre-license real estate topics course license and the 15-hour broker pre-license applied real estate principles course license based on this 75-hour broker pre-license curriculum by submitting a signed application, applicable fees and any other documents required on the application.
